Translator**

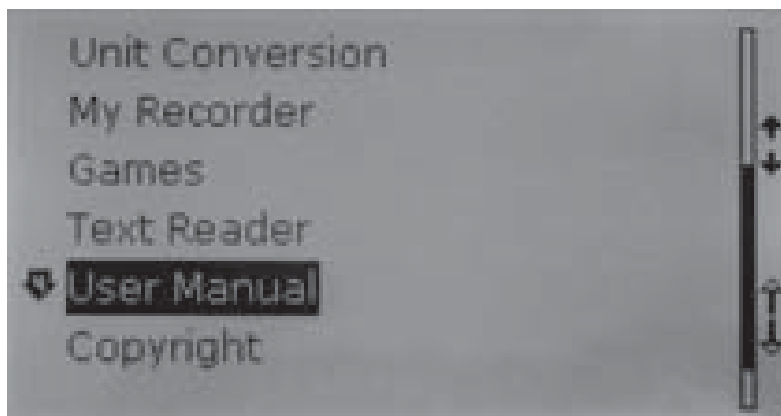

Complete Instruction Manual

You can find the detailed instruction manual in the Translator.

1. To view the Manual, press **TOOLS** to go to System Setup.

2. Press **↓** key to go to User Manual.

3. Press **ENTER** key to view User Manual.

4. Press **↑** **↓** up/down arrow key to browse through manual.

General Information

This electronic talking translator represents a new generation of handheld electronic device designed to high specification, compact in size, light in weight, and yet giving you optimum power and the necessary performance. Please see the following precaution in using this translator.

- Do not place objects on keyboard.
- Do not attempt to repair the device.
- Wait 10 seconds between switching off and on.

Power Source

1. The Translator is powered by 2 x AAA batteries (included).
 2. It can be operated via Micro-USB cable (included). Connect the USB cable with your Translator and Computer is only satisfied for power supply to replace the battery.
 3. It can be operated via common Micro-USB adapter (not included), compatible with the cell phone devices in market e.g. Blackberry, Nokia or Samsung etc.
 4. The Translator is NOT with rechargeable system, it is NOT applicable to recharge battery.
- When batteries power is low,  appear on display. If happens, replace batteries.
 - Turn off the translator before replacing batteries.
 - Do not use different types of batteries or used batteries.

- Make sure batteries make good contact with the metal plates.
- Always remove a weak or dead battery from the device.
- To avoid damage caused by leakage of battery fluid, replace batteries once every 6 months.
- Do not expose batteries to direct heat.

Micro-SD Card and USB

1. There is a Micro-SD cartridge on the side of the Translator. You can download the text files or update software (if any in future) from your computer to the SD card, insert the SD card to the Translator to read them. Noted: The SD card is NOT included.
2. The Translator can be connected to a computer via USB cable, download your text files or update software (if any in future) for it. It is only available to use Microsoft Windows system for this feature.

Resetting the Translator

If the keyboard fails to respond, or if the screen performs erratically, you should reset the translator. Remove the batteries for 1 minute, reinstall batteries.

Key Functions

1.  : On/Off button. Translator has auto turn off function (3, 5, or 10 minutes). You can set the time under Tool → Shut Off Time. Factory default is set to 3 minutes.
2.  : Main language Menu.
3.  : Menu language. Select your language.
4.  : System Setup, Calculator, Conversions, My Record, Games, Science/Formula, Text Reader, User Manual, Copyright, Version.
5.  : Zoom. To view bigger font size.
6.  : Space.
7.  : F1 function key.
8.  : F2 function key.
9.  : F3 function key.
10.  : F4 function key.
11.  : F5 function key.
12.  : a) Capital letter. If Shift key pressed twice CAPS sign will appear on top right corner of screen.

b) In cross word translation, press shift key, then press right arrow key  to highlight two or more words.

Tips: While typing letters with the shift key on a PC, the shift key + the letter key are pressed simultaneously, in the translator you have to press shift key once followed by the letter key.

For instance in TAMIL model:

On the PC keyboard:

Press & hold  key and press letter (D) to get “அ”

On the Translator keyboard:

Press  key once (do not hold it down) then press letter (D) to get “அ”

13.  : â á - Accent key (Vowel). Press target alphabet, and then press the Accent key to get available characters. E.g. Press ‘o’, then press the Accent key to get [ò,ó,ô,õ,ö] etc.

★ - Favorites. In Translate or Dictionary mode, press this key to copy screen to your favorite list.

Tips: While typing letters with the  key on translator keyboard, you have to press the letter key once followed by the  key.

For instance in French model, on the the translator keyboard press letter (A) once (do not hold it down) then press  key to get “á”.

14.  : Symbol. Type punctuation ', . / ...
?* - Wildcard. More powerful searches can be done using placeholder symbols (?) (*) to search your unknown letter, e.g. 'AMA?ING' to find 'amazing'; 'AMAZ*' to find 'amaze' or 'amazing'.
15.  : Escape. Return to previous screen.
16.  : Backspace. Delete the last input.
17.  : Speaker. Press to hear voice.
18.  /  : Up/down and move to available voice option.
19.  /  : Up/Down and Page Up/Page Down
20.  /  : Left/ Right.
21.  : Enter key. Type something, press this key to get translation.
